Monday. "It is useless to deceive its origin in campaign promises ourselves. It is necessary to feed our armies well and in view of the inmade in the summer of 1916. The creasing consumption of food and described by any is that promises were made to creasing consumption of food and decreasing production we shall be unable to do this unless exceptional weather prevails this spring and unless extraordinary measures are alphold. I am reporting to the state of those promises there are alphold. I am reporting to the state of those promises there are alphold. phied. I am reporting to the state department and also to congress that Europe's crops may be worse than last year's, and that the mobilization of men in the United States for farm work may be necessary. We should associated in the eleven arid states to grazing purposes so that the United States will be able to supply cattle for replenishment of the diminishing stocks. Our allies are depinding upon the United States. Without its help they would reach a condition similar to that in Germany and Austria in which there is merely food enough for the armaes, with the civil populations dying off.

After the Ragian and the Ereslan was foreign the a British mine field. The Goben headed at full speed toward the Fardabelles, striking a mine near the entrance. Turkish destroyers, coming to the assistance of the Bresthe entrance. Turkish destroyers coming to the assistance of the Bres-lau, were engaged by British destroyand driven off.

Esthonia, and Livenia from the Russian empire makes of this empire a mortal enemy, for Russia will not altarding the spread of the dissatisfacways have Lemmistic feelings. These countries would bring us no advantage. Their economic development could not in the least be helped by gold tage. Their economic development could not in the least be helped by gold fertilization by Germany with its one hundred and fifty billion marks of war viki—no annexations and no indemnities would be no adventure of the bad weather, many of the carriers, including all those out of Yorkville, made the trip.

"If it had not been for the fact that this was Enquirer day," said one of hundred and lifty billion marks of war debt, and a Slavic strain through Germany would endanger the life of the country, not merely the life of east Frussia. After our experience in the west is there now to be created a of conquering the world. Also it is Alsace-Lorraine." With regard to Alsace-Lorraine Herr Hardin writes: Norther Premier Lloyd George nor President Wilson believes Germany is willing to surrender Alsace-Lorraine France at the present moment, at what about Geramny's attitude two or three years after peace is signed when there can be a fair consultation with the people? It was admittedly a mistake to take possession of Alsace-Lorraine. Must we always carry this burdensome inheritance of our forefuthers." We are strong forefathers? We are strong enough to be our own masters and to enough to be our own masters and to cross of trator, wants it understood that the probably from a defective flue. Freezease to be transmelled by errors of trator, wants it understood that the probably from a defective flue.

in forand dealers were trying to alarm prevent the public from being panic-stricken and paying \$15 to \$20 a ton for coal I gave a statement of the facts to the public and suggested that they buy such coal as necessary, and that when congress passed the bill that when congress passed the bill giving the government control the s would be more reason of the coal operators and have acted in a most patric way and have not taken advantage, but have been trying to help. There has been very little complaint of dealers trying to take advantage of the public in Georgia outside of Atlanta.

RAISING THE VALUATION. Study of the tax returns being taken recent ruling of the state tax com-

recent ruling of the state tax commission is receiving very serious consideration at the hands of the property owners of York county, and also it suggests that the township and county equalization boards are going to have something of a job on their hands to straighten out the complications by which they are going to be confronted.

The state tax commission has ordered that all property be assessed for each that all property be assessed for taxation at full market value. The commission promises that if this is the initiatory work.

The allies are maintaining an external factors are going to the commission promises that if this is the initiatory work.

The allies are maintaining an external factors are going to the commission promises that if this is the initiatory work.

The allies are maintaining an external factors are going to the commission promises that if this is the initiatory work.

The allies are maintaining an external factors are going to the commission promises that if this is the initiatory work.

The allies are maintaining an external factors are going to the complete factors and the property be assessed for taxation at full market value. The commission promises that if this is the factors are going to the closing of hundreds of industries and the uniforms are not solled they don't have to be washed and there is not a single soldier in this division who likes that the uniforms are not solled they don't have to be washed and there is not a single soldier in this division who likes do wash—clothes, I mean. As a matter of fact, very few are keen about wash—the wash ento the thermometer of act, very few are keen about wash—the thermometer is around 10 or 12 in the morning as it has been most of the time during the fact, very few are keen about wash—the thermometer is around 10 or 12 in the morning as it has been most of the time during the fact, very few are keen about wash—the thermometer is around 10 or 12 in the morning as it has been most of the time during the property be assessed for the propert

commission promises that if this is done the county and township boards will cut the returns an even fifty per cent. The argument of the commission is but there is no other true. sion ist hat there is no other true basis of value, except the market value and if all property is assessed at its true market value, then the burden of taxation can be justly and equitably distributed among all property own-

ing their returns just as they made them heretofore, and still res are giving in their property at about 75 per cent of its value. For instance, it is a rare thing that anybody has heretofore returned a mule at more than \$100. Most mules that anybody has been stored by more than \$100.

were returned at considerably under that, some as low as \$25 and even \$5:

erty at full value, with the explana-tion of having the returns cut 50 per-cent, others are returning at only 25 or 50 per cent above last year, and others are returning same as low as others are returning same as low as last year, all no doubt expecting to have their returns cut half in two, and here is where the equalization boards are coming in for their part of emp for the first time in many weeks

them what the state tax commission has ordered, and advising them as to the law. I have no authority in the matter and no discretion. Whatever what the state tax commission In most cases the space asked for anged from half a column to two col-mns, and all of them together would matter and no discretion. Whatever a man puts down and swears to as his return, I have to take. It will be for the equalization boards to adjust all differences.

Gladden, chaplain, J. S. Edwards, R. S. V. of fact, very few are keen about wash-

much easier and more satisfied since Uncle Sam's checks have been re-ceived by their wives or other de-pendents. A private soldier who draws \$30 a month and who has a wife pendents. A private soldier who draws \$30 a month and who has a wife and child dependent upon him for support must allot half of his pay or \$15 prohibition will be a fact throughout ing great care of his army, consider-ing the short time he has had for pro-vision.

There is no "dope" affoat as to when

we are going over. Really the subject does not concern us and it is the rarest thing in the world that one runs up against a soldier who is the least bit interested in a discussion about it. Why should we care about it or why should we specualte on it? We are should we specualte on it? We are soldiers of the United States government and we will go any place at any time the government says go. If we go tomorrow, it is well. If we never go, it is well. If the war is still in progress when the military authorities consider us fit for service, we will go over and into it. If it should come over and into it. If it should come of the contract we will go over the contract we will go over the contract we might go law and stop the thousands of South to a close tomororw, we might go olina to wipe out the quart-a-month law and stop the thousands of South anyhow. We haven't got time to speculate or meditate or contemplate the point. We don't even discuss to

are quite hospitable; but Greenville has it on Columbia in that respect, ac-cording to soldiers who have been stationed in both places. In a letter from a friend the other

site of the streats were to be fixed in the need for more, and in the could be need for more, and in the could be need for more and the could be needed to be "stalled" out at every former are needed to be nee order of Dr. Gardeld. Most of the infractions of the order are said to h. ve been due to misunderstandings rather than to wilful disobedience.......During the past few months revenue of-

one of these ditches an' Fritz was in another?" I grinned and looked kind of sheepish, and then the big North Carolinian said in an apologetic way: "No buddy, I wuz just kiddin' with you. You didn't act near as much like a rooky as I did the first day or two is I went out. And as for holding your gun like you wuz rabbit huntin'. I sull like you wuz rabbit huntin'. I still hold mine that way more or less and I git balled out about it pretty often yet. I don't know why it is; but somehow my Springfield puts me in the mind of my old single-barrel I used to shoot rabbits with up in No'th Calina, and I can't clar, my head o't the fact that it hain't." But I will learn in due time, I guess.

Each soldler has been issued a blue overall suit. "Fatigue uniforms" they are called and they are worn by the men when they are detailed to dig trenches or cut wood o'f move a house or do one of a hundred other things that they have to do occasionally. To see a squad or plantoon of soldiers dressed in these fatigue uniforms reminds one of a gang of carpenters or day laborers. Unless you know it be-

of the poorer classes. Three Irish weeklies of New York, supporters of the Sinn Fein movement in Ireland, have been barred from the mails. Fandits attempted to hold up a St. Louis, Mo., saloon Tuesday night. Two of the bandits were killed and a lois little to record in the way of military activity during the past week. On the western front the allies are maintaining an expectant attitude. While the enemy has been busy concentrating his offensive forces, the British and French have greatly strengthened their defensive positions, reorganizing their tactical arrangements which imany areas were hitherto chiefly of an offensive character, and are now prepared for every eventuality. The recent events in Russia, which have removed from the theater of active operations over 900 miles of front in the east, the invasion of Italy and the sonsequent shortening of the battle ine in this zone by nearly 150 miles ave resulted in greatly increased trategic freedom for the central emires. Reviewing the minor operations which took place during the eight under examination, it is notice let that ascendant initiative and alertess is again displayed by the allies efind the British and French tively raiding trenches on the Gerian lines, driving in outposts. ican, were torpedoed in the Mediterranean sea, off the coast of Spain, a few days ago. Frederick L. Wood-ward, a private in the army quarter-master's corps, confessed in Washington. Monday, to having set fire to the

The Goeben and the Breslau, had emerged from the Dardanelles Sunday morning to attack British naval forces north of the Island of Impress After the Raglan and the small monitor had been sunk the Breslau was formidable army. has been the stories of unrest and

- Germany should not take any tercitermany should not take any ter-citery from the Russian empire and might give back Alsace-Lorraine to France, Maximilian Harden declares in his paper, the Die Zukunft, of Per-lin. He says: "He who wishes to tear away Poland, Courtland, Lithuania, extheme and Lyapus from the Puss." to the war situation. It was reported russia. After our experience in the est is there now to be created a such greater and more dangerous understood that hundreds of thouse lace-Lorraine?" With regard to Isace-Lorraine Herr Hardin writes:

Neither Premier Lloyd George nor experience the properties of the German forces that are consistent with the german forces hind the German forces that are contemplating one last big desperate drive against the Allies in France, and the people at home, realizing the terrible slaughter that must necessarily occur in this drive, would, if possible, stop the thing where it is.

whole key to the flour regulation is simply this. No family is allowed to the following statement relative to the fuel situation: "Last summer than thirty days' supply of the fuel situation: "Last summer when the experts of the Federal Trade commission examined the books of coal operators they found that the profits they were making at advanced prices were exorbitant and out of all reason, being ten to twenty times hoarding in violation of regulations."

whole key to the flour regulation is simply this. No family is allowed to have salling, and the task that confronted the firemen was something frightful.

As usual the horses and mules refused to go out of the burning build-have laid in flour in amounts sufficient to supply them for more than them and forced them to the behind them and forced them to the exit doors, but there the terrified animals would turn and rush back into the present liberal support of The Enderthous that confronted the firemen was beautiful to something frightful.

As usual the horses and mules refused to go out of the burning build-have laid in flour in amounts sufficient to supply them for more than there are thankful is the hinty days are liable to have the same profits they were making at advanction there are the firemen was been the firemen was beautiful to something frightful.

As usual the horses and mules refused to go out of the burning build-have laid in flour in amounts sufficient to supply them for more than full them and forced them to the exit doors, but there the terrified animals would turn and rush back in-the firemen was found that the firemen was found to something frightful.

As usual the horses and mules refused to go out of the burning build-have laid to send it. We recognize that they have a print to send it. We recognize that they have a print to send it. The reason we are thankful is the hint to send it. The reason we are thankful is the profit to send it. The reason we are thankful is the hint to send it as the properly be-long to the properly be-long to the prop being ten to twenty times hoarding in violation of regulations the price of coal. In order to rages. The mine owners, greedy with

ants automobile owners to know ville, is to have charge of the raising hat license application blanks are in he hand of all clerks of court and the benevolences of the Southern all automobile dealers, and that people Presbyterian church for 1918, has who have not made application before about been perfected, and Dr. Gil-February 1 will be in a bad way so lespie has entered on the work.

Speaking of the question of pay for all purposes and the South

Covernment appeal agents have been allowed to run around loose doing more harm in a minute than Beard was able to do in a year.

Government appeal agents have been instructed to appeal all cases where instructed to appeal all cases where will work contemplates the establishment of an office in the Theological seminary at Columbia, and from there will can associate to the extent that will be necessary to perfect the seminary at Columbia, and from the will can associate the ment of an office in the Theological seminary at Columbia, and from there will can associate the will can associate the will can associate the will continue in close advisory. Government appeal agents have been ter the fuel administration decided to enforce the plan, he said, it was laid before President Wilson. Director teneral McAcoo and Chaurman Hurley, of the Shipping Poard, but only the approval of the president was shown to Mr. Nasnyth said it was ferman plan for the reorganization of the Turkish army, because of the department of the Turkish army, because of the department of the Said that steps should be the Turkish army, because of the department of the Said that steps should be the Turkish army, because of the department of the section of 160,000 Turkish troops because of the desired district boards have granted department of an office in the Theological seminary at Columbia, and from there will canvass the state to the existence of the will continue in close advisory to feather, as a state of the content of the plan was perfected, Nasnyth continue, and of the proposes to set to review classifications by local divide his churches form. ed, on the night of January 15 at a conference of Fuel Administrator Garbeld, P. R. Noves, of the fuel administration N. H. Nyms, legal adviser to Dr. Garlield. The following day it was considered by all the fuel administration's advests. Nasmyth testified, and issued that night. insure uniform decisions, considering cach case on its merits.
